CATERING MENU

ADDONS & EXTRAS

- Skewer sizing is roughly 35% difference from small to large portion - This includes side portions (rice roast potatoes, Greek salad & tzatziki)
- Pita size remains the same. Skewers can be served as 4,5 oz per cutting-- this creates more smaller skewers which can be beneficial as there are more smaller options people can choose from. This way limits food waste as well.
- Served buffet style by group of food
- 1.3 skewers for the small portion-2 skewers for the large

Add extra skewers:

- small skewer: 4.5 oz - \$7
- medium skewer: 6 oz - \$11
- large skewer: 9 oz - \$14
